<b>10) Describe the issue and action that should be addressed:</b>  Specifically, I reviewed the GUIDELINES from the different states that was included.  I hope you will communicate my opinions to the Board members. I will not copy anyone else, to avoid ‘walking quorum’. My opinions are as follows: 1. I still believe endorsing the CDC guidelines as Wisconsin MEB guidelines is the best approach. 2. Of the state GUIDELINES, I reviewed in detail all the ones included. The best GUIDELINES are from the following states in descending quality and clarity: Washington; California; Tennessee; Georgia; Oklahoma; Utah and Texas. The rest of the state guidelines are NOT detailed enough; some like Minnesota defer and link to the FSMB guidelines; Massachusetts and Ohio are complex & punitive; Michigan relies on GUIDELINES issued in the 1990’s and New York is confusing. The others are some copy and parts of the California guidelines. 3. The agreement the Controlled Substance Committee had for requiring TWO hours of CME on opioid prescribing with each renewal after 2017 is the best, The other states are all over the spectrum. If you, or the Board members have questions, let me know.
